PROFESSIONAL SUMMARY

Motivated and detail-oriented aspiring software developer with a strong foundation in programming, data structures, and software development principles. Passionate about building efficient, scalable applications and continuously learning emerging technologies. Eager to contribute to real-world IT projects and grow as a valuable member of a dynamic development team.

CORE COMPETENCIES

Full Stack Development | REST APIs | OOPs | SDLC | Agile | Git | UI/UX | MySQL

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, HTML, CSS, Javascript

Tools & Technologies: Git & GitHub, Visual Studio, Eclipse, Jupyter Notebook, React, MATLAB

Database Management: MySQL

EDUCATION

Padmabhushan Vasantdada Patil Institute of Technology, Pune May 2026
Bachelor of Engineering (B.E.), Electronics and Telecommunication

Bharat Junior College, Pune March 2022
Higher Secondary Certificate (HSC)

Bhartiya Vidya Bhavan SNVM, Pune March 2020
Secondary School Certificate (SSC)

CERTIFICATIONS & ACHIEVEMENTS

- Internship at CODSOFT – Focused on real-world software development tasks (Certificate).
- Completed C Programming and Data Structures course (ITE)(Certificate).
- Future Skills Training in Core Java at FUEL (Certificate).
- SAP training on emerging technologies(Certificate).

PROJECTS

- **Hand Gesture Recognition using Python (Computer Vision)**
  Designed a gesture-based interface using OpenCV, NumPy, and Python. Implemented contour detection and hand tracking to recognize specific gestures in real-time.
  Technologies: Python, OpenCV, NumPy
  Skills: Computer Vision, Image Processing, Machine Learning

- **Mall Customer Segmentation Analysis (Data Analytics)**
  Performed demographic-based segmentation using clustering techniques to identify customer trends and preferences. Built visual dashboards using Power BI for insights.
  Technologies: Power BI, Python, Pandas
  Skills: Data Analysis, Data Visualization, Business Intelligence, Clustering

- **Academic Performance Insight Dashboard**
  Developed an interactive dashboard to monitor and compare student academic performance. Utilized Excel, Python, and visualization tools to generate actionable insights.
  Technologies: Excel, Python, Matplotlib, Power BI
  Skills: Dashboard Design, Data Reporting, Educational Analytics

- **React Video Chat Application using WebRTC**
  Built a browser-based video calling platform using WebRTC for real-time peer-to-peer media streaming. Implemented signaling using Socket.IO and Node.js to establish and maintain video/audio connections between users. Designed a responsive React interface to manage call initiation and stream handling.
  Technologies: React, WebRTC, Socket.IO, Node.js
  Skills: Real-Time Communication, Peer-to-Peer Networking, Web Development, Media Streaming

INTERESTS

- Software & App Development
- Gaming and UI/UX Trends
- Reading Scientific Journals and Research Articles
- Playing cricket, basketball
